- **Sail & Grommet Eyelets**
- **Stationery Eyelets**
- **Universal Eyelets**
- **Pop Fasteners**
- **Press studs**
- **Plus many more uses**

This is a portable and very versatile machine that has a variety of uses, not just for setting eyelets but can also be used to set rivets, press studs, pop fasteners as well as a hole punch when used with the correct type of dies.

Ideal for medium volume professional use, or as a hobby machine and suitable for use in a college or school.

It can either be fixed in position or becomes fully portable when used with a detachable base plate.

The HP500 can be used by a variety of businesses from corset makers to banner makers, for inserting eyelets in tarpaulins or eyeleting cardboard or plastic, cloth or metal.

Usually used with our unique combination dies that cut a hole in your material on the first pull of the handle then set the eyelet with the second. So no need to change between cutting and closing dies.
