

PM400 Pneumatic Eyelet Machine

This compact high performance machine takes the strain out of inserting our self-piercing eyelets.

Totally air operated. Will in one single action punch out a hole in your material whilst simultaneously setting the eyelet or grommet.

Ideal for Self-piercing Eyelets

- Does not require any electrical connection
- Extremely simple to operate.
- Sets sizes up to 18mm hole diameter
- Ideal for vinyl banners and other plastic material.
- Back stop for accurate placement of work.
- Foot operated pedal leaves both hands free.
- Finger guard protection mechanism prevents operation when dies are obstructed.
- Available with its own bench if required,
- Can be mounted on castors for moving around the floor/ table when working with very large pieces of material.
- Small enough to be operated from behind
- We can supply an appropriate compressor if required.

Mobile version for moving around the work area
